GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Indian Trade Act, 1894, for certain purposes, was presented to the Legislative Assembly on the 25th February 1896:—

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Trade Act, 1894, for certain purposes, was referred, have considered the Bill, and have now the honour to submit this our Report, with the Bill as amended by us in certain details.

2. We have amended Clause 2 in the Schedule so as to make provision for the expenditure by notification of such and such as it may be considered necessary to bring under the specific duty applicable to such cases. The forms contained in the Bill would have to be filled up by the Collector of Customs at the time of importation of the

decision whether any particular substance was or was not a substance of the nature or use in question. The object of our amendment is to secure uniformity of treatment at the various ports.

8. We have deleted from 11 of the Schedule. We submitted that on account of the failure of the Indian Broadcasting Company when the Bill was drafted, proposals for the construction of broadcasting operations by direct Government agency are under consideration, and that, if such a scheme materialises, it will be necessary to provide in it that revenues corresponding to those previously received by the Indian Broadcasting Company shall in future be received by the Government. The Indian Broadcasting Company's revenues were derived partly from a portion of the licence fees charged to producing sets and partly from "rebates" of 50 per cent on the invoice value of articles of the apparatus required for wireless telegraphy. The export duty on wireless apparatus has been reduced from the statutory rate of 15 per cent ad valorem to 5 per cent ad valorem by a notification under section 35 of the Ben. Customs Act. The most convenient method of securing to Government a revenue corresponding to that formerly received by the Indian Broadcasting Company from imports of wireless receiving sets is by continuing the existing duty of 15 per cent ad valorem, or part of it. The exact adjustment of the import tariff which will be necessary for this purpose has yet to be determined, and in the meantime it is desirable that no alteration should be made in the statutory tariff.

4. The Bill was published in the *Gazette of India* of the 14th February 1920.

5. We think the Bill has not been so altered as to require republishing, and we recommend that it be passed as now amended.

S. 1. S. 2. S. 3 of 1930.—Madras State Bill to introduce (Amendment)—Ordin.

Bill to be introduced in the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations.

Under rule 13 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

BILL NO. 8 OF 1930.

A Bill to provide for the control of traffic in Government roads.

WHEREAS it is expedient to enable the Local Government to make provision for the control of traffic in Government roads; It is hereby enacted as follows:—

1. (1) This Act may be called the Madras Government Roads Traffic Control Act, 1930.

(2) This Act extends to the whole of the Presidency of Madras.

2. In this Act, 'Government road' means any public road in the charge of the Local Government.

Definition of
'Government road'

Power to
make rules
for the regu-
lation of traffic.

3. The Local Government may, after previous publication, make rules to provide for the regulation or prohibition of traffic in Government roads or their reservations for particular kinds of traffic.

Penalty for
breach of
rules.

4. In making any rule, the Local Government may provide that a breach thereof shall be punishable

(a) with fine which may extend to fifty rupees and, in case of a continuing breach, with fine which may extend to fifteen rupees for every day during which the breach continues after conviction for the first breach, or

(b) with fine which may extend to ten rupees for every day during which the breach continues after receipt of notice from the officer empowered in this behalf by the Local Government to discontinue such breach.

STATEMENT OF OBJECTS AND REASONS.

The Tellicherry-Cannor and the Calicut-Mysore roads were taken over from the District Board of Malabar by the Public Works Department. In consequence, the by-laws for the regulation of traffic framed by the District Board of Malabar under the Madras Local Roads Act, 1920, ceased to have force over them. There is no law enabling the Local Government to frame rules for the effective control of traffic in these roads. The Bill is intended to confer on the Local Government the same powers of control of traffic in respect of roads in their charge as are conferred on the district boards under the Madras Local Roads Act, 1920, and on the municipal councils under the Madras District Municipalities Act, 1920.
